Technical details

Technical specifications	T@B 320		T@B 400
	BASIC	OFFROAD (Note: H721)	BASIC
BASIC EQUIPMENT			
Total length incl. drawbar (cm)	517	517	597
Usable length (cm)	340	340	421
Width (outside) (cm)	201	201	225
Width (inside) (cm)	180	180	204
Height (outside) (cm)	244	249	261
Height (inside) (cm)	182	182	198
Mass in running order (basic model without optional equipment but with basic equipment) (kg) (Note: H720)	655	690	980
Technically maximum authorised laden mass (kg) (Note: H720)	800	1.000	1.200
Maximum payload (kg) (Note: H720)	145	310	220
Tyre size	195/55R15	205/70R15	205/65R15
Rim size	5,5J x 15	6J x 15	5,5J x 15
Beds (Note: H141)	2	2	3
Max. number of beds (Note: H142)	2	2	3
BODY			
Window with integrated double blind	5	5	5
Body door (width x height)	55 x 150	55 x 150	55 x 170
Wall thickness, roof (mm)	31	31	31
Wall thickness, side wall (mm)	31	31	31
Wall thickness, floor (mm)	38	38	38
LIVING AREA			
Bed size, front (cm)	–	–	70 x 195
Bed size, rear (cm)	175 x 200	175 x 200	145 x 198
WATER			
Fresh water volume in liters	20	45	45
KITCHEN			
Refrigerator (ltr.)	–	–	106
ELECTRICAL SUPPLY			
Number of 230 V socket(s)	2	2	5
Number of USB socket(s)	1	1	–

Packages

Item no.

150005	12 V supply Package (27 kg)	
	AGM battery, suitable for solar technology	
	Electronic charger 28 A, with voltage filter (for optimal charging in driving operation)	
	Display for battery power via Bord-Control panel incl. level indicator for fresh water tank	

Item no.

150007	Autarkic Package – T@B L 400 TD (36 kg)	
	AGM battery, suitable for solar technology	
	Electronic charger 28 A, with voltage filter (for optimal charging in driving operation)	
	Battery monitor	
	Solar controller	
	Connection for battery temperature sensor	
	Display for battery power via Bord-Control panel incl. level indicator for fresh water tank	
	Shower extension with fittings, omission of the 230 V socket in the TR	
	Hot water system via TRUMA boiler BN 10 (omission of TRUMA Therme)	

Item no.

114580	Connected-Security-Package for velocate® GPS-Tracker	
252698	velocate® GPS tracker	
252815	velocate® LIFETIME license with unlimited, personal, EU-wide tracking	
253809	velocate® sensors (gas, temperature, motion)	
	In addition, the hardware is prepared to be expanded via optional sensors (e.g. door/window contact). For more information, please visit www.velocate.com

NOTES AND DEPENDENCIES

	General notes
H721	The name «OFFROAD» only describes one of the vehicles styling versions and neither justifies an authorized usability of the caravan, nor a quality agreement or a possible use after the purchase agreement or a suitability for a customary use.
H720	Incl. 100% fresh water tank filling (with Style OFFROAD + T@B 400 = 45 ltr. tank; with T@B 320 = 20 ltr. canister as standard); 100% gas; power supply; cable drum. Maximum payload (kg) as defined in the T@B catalogue indications = difference between technically permissible total mass and mass in running order. Please refer to the further notes and explanations on the back.
H141	Please note that the number of beds indicated may include beds for both adults and children. The beds do not have the same dimensions. We therefore recommend that you consult your T@B dealer about the dimensions of the beds provided in the vehicle so that you can decide whether they are suitable for the occupancy (adults/children) you intend to have.
H142	For some models, additional equipment must be selected in order to achieve the maximum possible beds. Your T@B dealer will be happy to advise you.
H145	If this option is selected, the vehicle height increases by approx. 11 cm
H146	In addition, the hardware is prepared to be expanded via optional sensors (e.g. door/window contact). For more information, please visit www.velocate.com
H137	A voucher to redeem the medicine set is enclosed with the vehicle. The medicine set contains medicines that must be purchased from a pharmacy. The voucher can therefore only be redeemed at the responsible MediKit mail-order pharmacy at www.medikit.shop You can also obtain further information about your MediKit at www.medikit.shop .

	General dependencies
ABH212	Not possible in combination with 150007
ABH214	Not possible in combination with 150005
ABH216	Includes 953557
ABH219	Only in combination with 101471 and 101455 and 150267
ABH220	Not possible in combination with 101457
ABH222	Only in combination with 101471 and 150267
ABH224	Only in combination with 101470
ABH226	Includes 953561
ABH228	Includes 953554
ABH230	Replaces 403567
ABH232	Replaces 450083
ABH234	Only in combination with 252698
ABH236	Only in combination with 252815 and 252698
ABH20250	Not possible in combination with 101455
ABH20252	Not possible in combination with 101471
ABH20254	Not possible in combination with 101470

NOTES

IMPORTANT INFORMATION

For leisure vehicles made by T@B, as part of the guarantee conditions which apply upon handover of the vehicle and in addition to your statutory warranty, we provide a 10-year no-leak guarantee on the vehicle body manufactured by us.

PLEASE NOTE THE FOLLOWING IMPORTANT INFORMATION FOR ALL T@B LEISURE VEHICLES:

ABOUT THIS PRICE LIST:

The contents correspond to the status of printing in 12/2022.
The price list is valid as from 01/2023 for the 2023 model year. Previous price lists, brochure information and technical data are no longer valid in regards to the vehicles offered.
Errors and misprints excepted.

ABOUT TECHNICAL SPECIFICATIONS AND ILLUSTRATIONS:

All measurements and weights are subject to change within possible tolerances of $\pm 5\%$ due to the use of natural raw materials.
We advise you to have any additions, alterations or installations carried out exclusively by authorised T@B dealers and to insist on original T@B parts in order to ensure your safety and to ensure that the type approval of your vehicle is not put in jeopardy. Any retrofitting of alterations or installations, in so far as they are technically feasible, shall incur a cost. Certain combinations of custom requests may be impossible in certain cases. We reserve the right to make changes to construction, colour and fittings in so far as these provide a technical advance, are reasonable and/or serve the purpose of safety.
Information on the product delivered, dimensions, mass and appearance, correspond to our understanding at the time of printing (12/2022). We reserve the right to make changes to fittings, technical data, series equipment and prices. Please make every effort to be fully informed about these matters by your authorised T@B dealer before making your purchase. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer.
Minor colour and texture deviations are also reserved - even after conclusion of the contract - insofar as these cannot be avoided due to the material structure (e.g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show equipment features that are not included in the standard equipment and that can be ordered for an additional charge (optional equipment) as well as some equipment features of prototypes/studies that do not correspond to the standard equipment and therefore cannot be ordered as optional equipment. Slight colour deviations of the illustrations in the brochure from the actual vehicle cannot be completely excluded for printing reasons. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised T@B dealer. The decoration shown in the catalogue is not part of the equipment supplied.

ABOUT WEIGHTS, CALCULATION EXAMPLES AND NORMS

The water supply system corresponds at least to the state of the art 03/2009 (regulation 2002/72/EC)
T@B leisure vehicles are characterised by their technical progress. With the help of innovative solutions such as the use of high-strength steels for the chassis or intelligent honeycomb technology in furniture construction, low tare weights of T@B leisure vehicles are achieved.
The mass of the empty vehicle within the meaning of this price list is the mass of the vehicle with standard equipment and without basic equipment, i.e. without the mass of the driver and without „liquids“, as well as without additional equipment within the meaning of Art. 2, no. 3 VO (EU) 1230/2012.
The mass in running order as referred to in Art. 2, no. 4 a) VO (EU) 1230/2012 is, unless otherwise regulated, defined as:
Mass of the vehicle with standard equipment as specified by the manufacturer (incl. bord tools)
+ Alu liquid gas bottle (5kg/11 kg)
100% filled (18/23 kg total mass)
+ Fresh water tank (100% filled)
+ Toilet flush tank (100 % filled)
+ Fresh water heater (100% filled)
= Mass in running order
The technically permissible total mass according to Art. 2, no. 7 VO (EU) 1230/2012 is defined as:
The maximum mass of the vehicle as stated by the manufacturer when loaded, i.e. the maximum permissible mass of the vehicle in running order with optional equipment and load (passengers, luggage, etc.).
The maximum load capacity as referred to in the T@B catalogue is defined as:
Technically permissible maximum mass
- mass in running order
= maximum load capacity
Example:
(Technically permissible maximum mass) 1.400 kg
- (mass in running order) 1.090 kg
= (Maximum load capacity) 310 kg
The information provided for a vehicle under the heading „Technical Data / Equipment Details“ initially refers to the basic type of model approved under the EC type-approval procedure. Within the scope of country variants and special models, these values may differ if necessary. Please inform yourself about such deviations personally at your T@B specialist dealer. Please note that the maximum load capacity as specified in the catalogue is reduced, for example, by the mass of the additional equipment ordered.
When selecting additional equipment, you are responsible for ensuring that your T@B leisure vehicle, after deducting the mass of the additional equipment

from the maximum load capacity, must still have a minimum load capacity (= minimum payload) which must under no circumstances be undercut (see Annex I, Part D, no. 2.3.4.1 VO (EU) 1230/2012)
(Maximum number of beds
+ Total length of the vehicle body in m)
 $\times 10$
= Minimum payload capacity in kg
[(Maximum number of beds) 4
+ (Total length of the vehicle body in m) 5]
 $\times 10$
= 90 kg.

As a customer of T@B leisure vehicles, you are required to ensure that the leisure vehicle configured by you still complies with the minimum pay-mass once your selected additional options have been taken into account. If this should not be the case because of additional options requested by you, then you have two options to choose from when placing your order:

- increase the pay-mass of the vehicle
- deselect additional options

Your T@B dealer will inform you at any time about the remaining minimum payload of your vehicle. The mass of the vehicle with standard equipment as specified by the manufacturer is determined by weighing a vehicle with standard equipment.
As a user of a T@B caravan, you are obliged not to exceed the „technically permissible maximum mass“ when driving and to ensure compliance with the permissible axle and drawbar loads by distributing the load evenly in the vehicle. You are also obliged to comply with all other regulations necessary for the safe operation of your caravan.

SPECIFICATIONS AND INFORMATION ABOUT PRICES

If you order options that replace components from the packages, these package components are not additionally supplied.
The prices indicated are recommended retail prices of the manufacturer. The prices indicated include the statutory value added tax (and, if applicable, other legally prescribed calculation factors or taxes, which may also be shown separately). The prices are (depending on the country) exclusive of the costs for registration documents, delivery and transport, unless expressly stated otherwise. Please consult your T@B dealer for further details.
The suggested retail prices for the optional extras apply exclusively to options built into new vehicles in the production run at the factory. Also bear in mind that retrofitting is not possible for all optional extras offered. The suggested retail prices given for individual equipment packages are not affected by the selection or deselection of additional options.
